PELICAN GLOBAL

A SINGLE, DEDICATED TEAM WITH SEAMLESS PROCESSES & CUTTING EDGE TECHNOLOGY

"Great People, Smart Business"

“What always piques our interest is an opportunity to provide latitude to our clients with exceptional talent, and we do so with indomitable spirit.”

We live in a complex world today and the future has never been so unpredictable and exciting as it is. In such times of constant evolution, the human resource requirements of organisations too have become extremely fluid. Traditional recruitment practices aren't designed to match up to the requirements of the new world. In the absence of cutting edge technology, automation and expertise, traditional recruiting practices aren't designed to match up to the requirements of the new world. In the absence of cutting edge technology, automation and expertise, traditional recruiting practices aren't designed to match up to the requirements of the new world.

Eventually the process of sourcing the candidates falls almost entirely on the shoulders of the leaders driving the business, adding time that time that is better spent at business growth.

To overcome such hurdles organisations turn to Pelican Global for high quality talent and the agility they need to address their specific world of work challenges, with speed and efficiency.

INFRASTRUCTURE & FACILITIES

We strive to attract and retain the best talent and create a culture of conscious inclusion that fosters innovation, enables high performance and allows everyone to achieve their full potential.

OUR PEOPLE & CULTURE

Pelican Global was established with specific focus on Employee Employer requirements. Since our inception, we have successfully built-up a group of competent recruitment professionals to become part of our valuable workforce for continuing growth and success.

The strength of our team lies in our thorough immersion of the Middle East, Asia and Europe markets, and the ability to support specific needs and use that knowledge to ensure success.

The recruitment operations team consists of personnel from the following departments:

- Technical Consultants & Headhunters / Sourcing Department
- Client Relationship Management Department
- HR & Admin Department
- Visa Processing & Mobilization Department
- IT Department
- Accounts Department

Infrastructure conducts to proper recruitment and deployment

- Video Conferencing over a high-speed internet connectivity for interviews.
- Local communication facilities like telephone, fax, email, etc.
- Interviews, seminars can be held for working arrangements up to 1,000 persons.
- Tests for all of technical categories are conducted at independent third party testing centers.
- For specialized skill testing, we have necessary arrangements with the best government recognized technical institutes.

Our Head office is located in the prime area of Mumbai – the commercial capital of India, and central to all basic and high-end amenities.

50 YEARS

WHO WE ARE
EBHL is a family business with a successful track record as regards its world, open operation. Established in 1974, the company is located in a 9000m² manufacturing plant in Thessaloniki, Greece.
50 years of continuous research and development of technological infrastructure have led the company to the forefront of the Greek market. Currently, the company is focused on the B2B market.

MISSION
To revolutionize sustainable energy solutions by delivering high-quality systems to provide efficient and cost-effective hot water solutions for residential and commercial needs.

VISION
To become the go-to choice for individuals, businesses, and communities seeking reliable, eco-friendly hot water systems.
A commitment to excellence in all that we do simple!

WHAT WE DO
The endurance and reliability of the thousands of appliances it has installed have established the company as the number one choice for consumers.
EBHL continues to aim high, investing in state-of-the-art technology.

WHY CHOOSE US
We have deep market knowledge, strong networks of contacts across industry sectors and a strong service ethic.

VALUES

- Innovation
- Sustainability
- Customer-centricity
- Collaboration
- Ethical integrity
- Environmental responsibility

EBHA www.ebhl.gr/en

OUR STRENGTHS

- Efficiency**
Our advanced solar water heating systems are designed for maximum efficiency, ensuring optimal energy conversion and cost savings.
- Reliability**
Customers trust our time-tested solutions, backed by rigorous quality control, to provide consistent and dependable performance year after year.
- Commitment**
We are committed to promoting energy independence and enhancing the comfort and well-being of our customers while contributing to a greener and more sustainable future.

9000 sq.m. of Facilities

EBHL S.A. CONTINUES TO AIM HIGH, as it invests in state-of-the-art technology.

Vertical Production

Our innovative, dynamic and efficient solutions put us at the forefront, allowing us to turn disruption into advantage.

INNOVATIVE FRAME

New frame with double walls, that offers improved heat insulation and mechanical endurance.

Double-sided wall aluminium frame
A double-sided 12mm aluminium (Alloy Tempco 6000 T64) frame ensures extra-side insulation and collector durability while keeping the overall weight low enough.

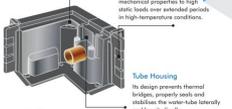

Verification holes
Verification holes remove trapped moisture preventing the usual condensation in glass, while ensuring water from entering the collector.

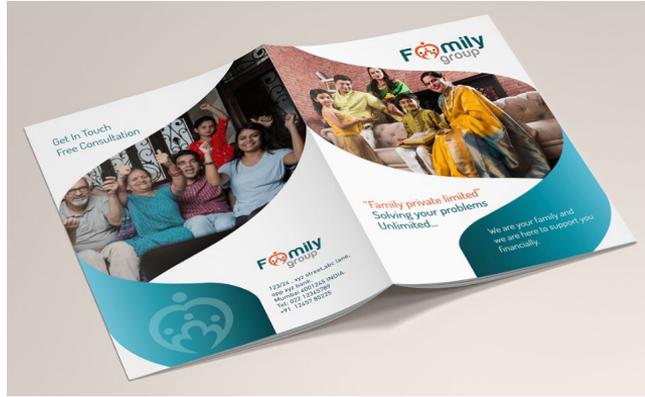

Durable Material
Panda GF 30% glass fibre reinforced Polyamide (PA) demonstrates outstanding mechanical properties to high static loads over extended periods in high-temperature conditions.

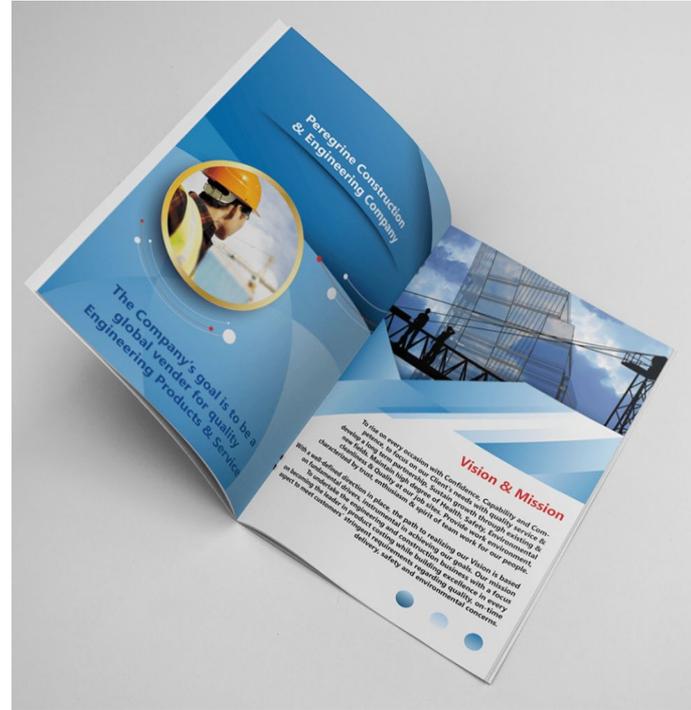

Tube Housing
Its design prevents thermal bridging, improves seals and stabilises the water-tube layout and longitudinality.

Models

Model	Water Capacity (L)	Collector Area (m ²)	Weight (kg)	Height (mm)	Depth (mm)	Width (mm)
